Why Choose YDL Quartz Stone

Natural Quartz

YDL Quartz stone is produced by using natural quartz (approximately 93%) with high-quality polymer resins (approximately 7%) and colorful pigments, wherein the mixed materials are compacted under intense vibration, vacuum, and pressure into dense slabs. Advanced processing technology brings granite-like colors, enduring shine, super hardness and porous free quality which prevent it from any liquid penetration. Its antipollution texture has rarely been matched by other solid surfaces or natural stone; therefore it is wide used in the field of architectural decoration.

Care & Maintenance

YDL Stone (Quartz) is designed to offer high performance with very little maintenance to keep the surface looking like new.

For everyday, routine cleaning of YDL Stone (Quartz) we recommend wiping your bench top with warm soapy water (a pH neutral household liquid detergent, or a mild detergent) and a damp cloth. As YDL Stone (Quartz) is non-porous product, it will keep its glossy and smooth surface without polishing and it never needs sealing or waxing.

YDL Stone (Quartz) do not recommend attempting to polish the surface on your own, and avoid prolonged rubbing in one spot when cleaning. Rinse well with water. Do not use bleach on or near a YDL Stone surface.

Heat Resistance

Although YDL Stone (Quartz) has high heat resistance to tolerate brief exposures to moderately hot temperatures, excessive prolonged direct contact with, or radiated heat may result in damage or discoloration to your YDL Stone (Quartz) due to thermal shock. We do not recommend placing any hot kitchen wares (hot oven trays, pans, hot pots, electric frying pans etc.) directly from the hotplate or out of the oven onto the surface of YDL Stone. We always recommend the use of a hot pad or trivet to place hot items on.

Food & Catering Preparation

YDL Stone (Quartz) always recommend cutting your food on an appropriate chopping board and never directly on the YDL Stone surface to avoid damaging kitchen knives or the surface of your bench top.

How Tough?

YDL Stone (Quartz) can be permanently damaged by exposure to strong chemical reactions and excessive weight. Avoid excessive weight being placed on your bench top, such as trades people standing on the bench top while doing other work. Avoid exposure to products with high alkaline/pH levels such as oven cleaner, paint strippers, paint removers, bleach and nail polish remover. Rinse immediately with clean water to neutralize the effect and then follow usual cleaning procedure.

For Interior Applications Only

YDL Stone (Quartz) should not be used outdoors. YDL Stone (Quartz) 10 Year Limited Warranty does not cover exterior applications (where exposure to direct sunlight may result in a discoloration and it is therefore recommended that exposure to direct sunlight is limited).

10 Year Limited Warranty

Warranty Inclusions

YDL Stone (Quartz) offers a 10 year limited warranty to the original purchaser in respect of the slab, subject to the terms and conditions set out below. The warranty covers any defects arising from the manufacture of the slab. Subsequent fabrication and installation are not cover in this warranty. This is a fabrication issue.

What is not included in the warranty?

1

Misuse or abuse (including uneven exposure to direct sunlight, outdoor exposure and use, damage caused by impact, discoloring caused by exposure to certain chemical reagents, and damage from exposure to excessive heat and weight.

2

The actual and final installed Product is not guaranteed to be an exact color-match to product samples or printed sample facsimiles. It is recommended for the customer to view the whole slab before any color selection.

3

Failure or dissatisfaction with the appearance of joints or seams, or of any adhesive, caulking materials, damage resulting due to accessory items installed. Failure caused by inadequate sub-structure support and substrate materials, including joints and seam failure.

4

For the Products not paid in full.

5

Damage caused by an act of nature.

6

Other installations such as boats, recreational vehicles and flooring.

7

The Product moved from its original place of installation.

8

Any modification or alteration to the surface of YDL Stone (Quartz) including Product thickness.

9

Any Product installed as flooring tiles or outdoors or in areas near swimming pools.

10

The warranty is applicable to the original purchaser of the materials and is not transferable to subsequent owners.

11

This warranty does not apply if the Product is not fabricated/installed by a licensed, qualified stonemason.

12

Any Product installed or located outdoors, such as BBQ bench top, outdoor kitchens, or in heated areas such as steam rooms, shower pans, and saunas.

13

Chips, cracks or any other impact damage; Chipping is not a material fault; it is normally a direct result due to impact to the edge of the surface; Cracks are not a material fault. They are not covered in the warranty and are usually a direct result of:

- Excessive weight (sitting, climbing or standing on the Product)
- Excessive heat (Trivets and hot pads should always be used)
- Sink or cook top cut out (not covered)
- Movement in joinery or house as a whole
- "U" or "L" shaped cut out/improper fabrication and installation; Any crack emanating from a cook top cut-out or sink cut-out is not covered under this warranty, these are not caused by any fault in the Product.

14

Blemishes, such as blotches or spots, are inherent in the manufacturing process. In the event visual blemishes, blotches, or a concentration of color pigments are larger than 20mm in diameter, the contracted fabricator should report it to YDL Stone prior to fabrication. Warranty claim against color variation is based on the visual inspection of 1 meter away from the Product. Inspection of the slab is to be in a normal viewing position with the slab being illuminated by "non-critical light". "Non-critical light" is defined as the light that strikes the surface is diffused and is not parallel or glancing to that surface.

15

Failure or dissatisfaction with appearance of joints or seams, or of any adhesive, caulking materials, damage resulting due to accessory items installed. Failure caused by inadequate sub-structure support and substrate materials, including joints and seam failure.

Fabricator Responsibilities

The fabricator shall at all times be solely responsible for inspecting the material to identify any minor aesthetic variations and it's suitability for the works to be carried out, prior to the fabrication process commencing. The fabricator must remove any protective plastic prior to fabrication.

Time for Claim under the Warranty

Please address any claim in writing within 28 days of the occurrence to

info@ydlstone.com.au

Limit of compensation - materials or material value only.

Statutory Rights

The terms and conditions set out in this document do not affect your statutory rights. The limitations on the Warranty set out in this document do not exclude or limit the application of the mandatory conditions or warranties implied by the Trade Practices Act 1974 or any other equivalent or corresponding legislation
